

Reduce hardware development time

Proprietary Mainboard Development Solution (up to 18 months)

2-4 Months

Project Specification
& Scope Definition

8-12 Months

Engineering Development,
Test & Verification

2 Months

Manufacture,
Integration & Delivery

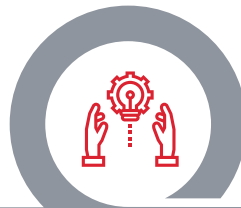

Vs.

Modular COM Based Solution (up to 9 months)

1-2 Months

Project Specification
& Scope Definition

4-6 Months

Engineering Development,
Test & Verification

1 Month

Manufacture,
Integration & Delivery

Key benefits of modular com based solution

Faster development time

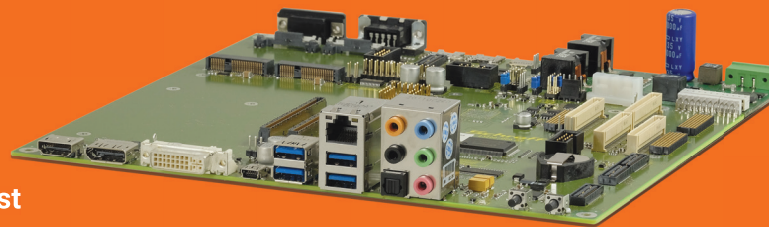

Flexible in volume

Hardware upgrades possible

Easier to develop and test

Up To **50%** Reduction of Project Cycle Time
